

Athletic Movement Screen

Have your athlete screened for potential injury!

This Functional Movement Screen is used by professional sports teams all over the world. Prevent injury this season and learn how to move better, faster, and stronger.

Benefits to Your Athletes:

- Tests seven basic movements
- Identifies movement faults and asymmetries
- Highlights areas for potential injury
- Reassesses and tracks progress easily
- Teaches athletes to move correctly

All performed by a certified FMS staff member.
