TheraCore Physical Therapy is dedicated to helping your patients achieve the best possible results. We deliver personalized care to our patients by licensed professionals who have a working relationship with your physician.

We understand that physical therapy treatment may be a critical part of your patient's recovery. We truly believe in the importance of individualized treatment plans, making each patient and their injury our top priority.

It is our intention to make it possible for all patients to receive the physical therapy they require, regardless of insurance coverage or financial circumstances. That's why we accept most insurances, Worker's Compensation and even personal injury lien cases.

We look forward to working with you and exceeding you and your patients expectations.
